

CrossSense Dataset Release Agreement

The CrossSense dataset includes gait and gesture data. It is released solely for the academic research purpose. Any researcher from any educational institute can use this dataset freely for ***non-commercial purpose***.

Due to the large size of the dataset (over 1 Terabyte), it cannot be hosted on Github. Instead, the dataset can be downloaded through a private download link with a username and password. To obtain access to the dataset, please read and sign your agreement to the following terms and conditions.

Terms and Conditions

Users must agree to the following terms and conditions for using this dataset:

- ✧ Without our permission, any of, but not limited to, the following behaviours will be considered illegal: redistribution, modification, commercial usage of this dataset, in any way or form, either entirely or partially.
- ✧ All subjects in this dataset are only allowed for demonstration in academic publications and presentations.
- ✧ As to acknowledgement, any publications using this dataset should acknowledge the CrossSense data by citing the following reference:

Jie Zhang, Zhanyong Tang, Meng Li, Dingyi Fang, Petteri Nurmi, Zheng Wang, **CrossSense: Towards Cross-Site and Large-Scale WiFi Sensing**. In Proceedings of the 24th ACM International Conference on Mobile Computing and Networking, 2018.
